

Tanya Pavliuk

Front-end developer

Summary

I am a Front-end Developer, and my heart beats with great passion for code. With a strong foundation in HTML, CSS, SCSS, JavaScript, and React. My level of English is pre-intermediate for now but is growing. Ukrainian is my native language, and I also have a native-level of Russian. Currently, I am studying TypeScript, and my plan is to deep into Next.js and Node.js.
